A.I. #: 7998
ACTIVITY ID: APE20080008

SOURCE DESCRIPTION:

The Division received a permit application from Toyota Motor Manufacturing, Kentucky Incorporated (TMMK) on July 1, 2008. The application was prepared in response to the Voluntary Disclosure submitted on September 5, 2007 and the action plan submitted on January 28, 2008. The application reevaluates Best Available Control Technology (BACT) requirements and emission limits for particulate matter (PM) emissions from the Body Operations Shop required by 401 KAR 51:017, Prevention of significant deterioration of air quality. In addition to the changes identified in the application, this permitting action also addresses 502 (b) (10) and Off Permit change notifications that have been submitted per 401 KAR 52:020, Title V permits, since the issuance of V-04-027 (Revision 3) on November 26, 2007.

PUBLIC AND AFFECTED STATE REVIEW:

On October 12, 2008, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in *Georgetown News-Graphic* in Georgetown, Kentucky. The public comment period expired 30 days from the date of publication. No states are affected by this permit action.

No comments were received during this period. The final determination of this Division is that the proposed operation will comply with all air quality regulations and requirements. The permit is now being issued as proposed. A final permit will be issued after the U.S. EPA's 45-day review.
